It offers both country specific case studies and thematic chapters, providing comprehensive study on Japan's relations with the Gulf and the wider Middle East. Japan enjoys a strategic partnership with the Arab Gulf countries in terms of its energy trade, yet this has morphed into a wider trading relationship with the wider Middle East. The book studies Japan's relations with Israel, Egypt and Turkey, covering security, the oil sector and the LNG sector Middle East. This will allow this book to go beyond its rich analytical and empirical content.
