Appartient à la collection : Library of flight

Classification décimale Dewey : 355.620 973

Note sur les bibliographies et les index : Bibliogr. en fin de chapitres. Index

Résumé ou extrait : "The second edition of this book provides an updated overview of each functional area that supports defense acquisition projects as well as its application to those projects, including systems engineering, financial management, contract management, test and evaluation, production management, and logistics and sustainment. The book also highlights significant issues such as organizational considerations, the defense industrial base, and acquisition workforce issues."
