Résumé ou extrait : Présentation de l'éditeur : "Governments worldwide are developing sunshine policies that increase transparency in politics, where a key initiative is regulating lobbyists. Building on the pioneering first edition, this book updates its examination of all jurisdictions with regulations, from the Americas, Europe, Middle East, Asia, and Australia. Unlike any book, it offers unique insights into how the regulations compare and contrast against each other, offering a revamped theoretical classification of

different regulatory environments and situating each political system therein. This edition innovatively considers different measurements to capture the robustness of lobbying laws in terms of promoting transparency and accountability. And, based on the authors' experience of advising governments globally, it closes with a no-nonsense guide on how to make a lobbying law. This is of value to policymakers seeking to introduce or amend regulations, and lobbyists seeking to influence this process."
