Résumé ou extrait : This book proposes an innovative and comprehensive framework for conducting statecraft in the 21st century. Called neo-statecraft, this framework is based on the reconciliation of power, interests and justice. The author proposes four substrates of neo-statecraft: 1) a new structure he calls meta-geopolitics, which includes seven inter-related dimensions of state power and identifies a Geostrategic Tripwire Pivotal Corridor (TPC); 2) a sustainable national security paradigm that stresses the centrality of justice, symbiotic realism and transcultural synergy; 3) a new concept called just power, which states that power must be smart as well as just, and that global justice is above all a national interest of all states; and 4) a new concept called reconciliation statecraft of the eight global interests.
