Note sur le contenu : Chapter 1: Introduction: The Dialectics between Russian Geo-economics and Geopolitics Chapter 2: Power Transition Theory, Geo-economics and the "Energy Turn" within Russian Strategic Culture Chapter 3: From Permafrost to Local Warming amidst Climate Denial in Russia Chapter 4: Russian Strategic Culture: Research Review in the Light of the Ukraine War Chapter 5: The Geopolitics of Putinism: The Decision to Launch a Colonial War and Beyond Chapter 6: From Pragmatism to Militarism and "Permawar" Chapter 7: From Permafrost to "Permawar" against Europe? Implications from the Ukraine War

Résumé ou extrait : "This book offers a new perspective on the security policy of Russia, linking the Ukraine war with its climate policy and Putin's strategic culture. It offers an analysis of Russian strategic culture, with the operational code of 'Putinism' being the ideological underpinning of Kremlin practices at home and abroad. The volume also addresses Russia's evolution during Putin's years in power, and

reflects upon Russia's global standing, for example, with respect to China. The work stresses the dialectics between Russia's ideational geopolitics and its climate policy and energy geo-economics, employing a broad approach to understanding security. A secondary analytical concern of the book is the implications and options of Putin's code for European security and world order. The book offers a synthesis of various fields of research and draws on key works by other scholars to offer an overview of the evolving transition of the Russian state. This book will be of much interest to students of Russian security policy, strategic culture, and International Relations." (page d'avant-titre)
