Résumé ou extrait : An introduction to the works of authoritative and innovative Chinese authors whose writings focus on the future of the Chinese military. These carefully selected, representative essays make Chinese military thinking more accessible to western readers. It reveals, for example, China's keen interest in the Revolution in military affairs. This volume is an important starting point for understanding China's future military modernization. "Must reading for every executive of every Western firm doing business in China." "Readers will be impressed by China's ambitions in space, information warfare, stealth, and robots, in future warfare." (éd.)
