The Ukrainian approach to ensuring

national resilience : experience proven in peace and wartime / Olga Reznikova Foreign trade resilience during wartime / Ivan Us Conclusion : old and new paths of resilience / Agata Mazurkiewicz Marco Krüger and Maciej Stępkowski

Résumé ou extrait : "This book focuses on developments of resilience in Europe, discussing its different interpretations and enactments, as well as approaches to national security and crisis and disaster management. Examining war-time resilience, increased refugee flows into the EU, societal resilience and its general application of the concept in national security strategies, the book juxtaposes the multifaceted nature of resilience in different, yet connected, European countries. In doing so, it illuminates multiplicity of approaches and interpretations that allows a deeper understanding of dynamically (re)developing approaches to resilience. This book will be of key interest to scholars, students and practitioners working in crisis response, disaster management, resilience and more broadly to European Studies, Migration Studies, Security Studies, Politics, Public Policy, and International Relations."
