Résumé ou extrait : This book focuses on the Indo-Pacific region's growing prominence as the world's major powers gravitate toward this space to expand their influence. With dynamic shifts taking place in the globe's most strategically volatile region, Indo-Pacific Strategies aims at clarifying the geopolitics of the Indo-Pacific, expounded both as a strategic concept and nascent region, thus contributing to the burgeoning policy and academic debate. The book offers indispensable insights and appropriate remedies to maintain the rules-based international order as threatened by China's increasingly assertive and

bellicose posturing. It offers up-to-date analyses of Covid-19-related geopolitical trends, the strategies of various Indo-Pacific states against the backdrop of great power competition, the increasingly confrontational stance of Indo-Pacific states against China and the 2020 US election results. This unique book presents deep insights into the roles of Eurasia, small island states, the Middle East and Africa, in addition to Australia, India, Japan and the US, thereby providing much needed comparative studies. It also closely investigates the strategic and tactical operationalization of the Indo-Pacific, making it an essential read for scholars, policymakers, students, and strategists in the field of international politics and Area Studies
