Résumé ou extrait : La 4e de couv. indique : "In this exciting book Mike Spick shows how the Luftwaffe's leading fighter pilots were able to outscore their allied counterparts so effectively and completely during WWII. When the records of the Jagdflieger pilots became available after the war, they were initially greeted with incredulity - the highest claim was for 352 kills, and more than 100 pilots had recorded more than 100 victories. However post-war research proved that these claims had in fact been made in good faith and confirmation had only been given after rigorous checking."
