Description matérielle : 1 volume (XXI-706 pages) : illustrations, graphiques, tableaux ; 25 cm

ISBN : 978-1-03-216271-3

1-03-216271-6

978-1-03-216273-7

1-03-216273-2

EAN : 9781032162737

Classification décimale Dewey : 355.033

Note sur les bibliographies et les index : Bibliographie en fin de chapitres. Index

Résumé ou extrait : Security Studies: An Introduction, 4th edition, is the most comprehensive textbook available on the subject, providing students with in-depth coverage of traditional and critical approaches and an essential grounding in the debates, frameworks, and issues of the contemporary security agenda. This new edition has been completely revised and updated, to cover major developments such as COVID-19, the rise of populism, climate change, China and Russia's place in the world, and the Trump administration. It also includes new chapters on great power rivalry, emerging technologies, and economic threats. Divided into four parts, the text provides students with a detailed, accessible overview of the major theoretical approaches, key themes, and most significant issues within security studies. Part 1 explores the main theoretical approaches from both traditional and critical standpoints. Part 2 explains the central concepts underpinning contemporary debates. Part 3 presents an overview of the institutional security architecture. Part 4 examines some of the key contemporary challenges to global security. Collecting these related strands into a single textbook creates a valuable teaching tool and a comprehensive, accessible learning resource for undergraduates and MA students.
