Résumé ou extrait : La 4ème de cov. indique : "In 2015, the European Commission invited key personalities from European industry, government, the European Parliament and academia to advise it on establishing a Preparatory Action on Common Security and Defence Policy (CSDP)-related research. The primary mission of this Group of Personalities was to help establish recommendations for a long-term vision for EU-funded CSDP-related research which can boost European defence cooperation. These recommendations address the overall scope and governance of future EU-funded CSDP research and highlight possible collaboration and coordination mechanisms. The overarching goal of the Preparatory

Action and CSDP-related research is to create a framework that would facilitate a collaborative approach to defence among the member states."
