Résumé ou extrait : This book discusses the basic and cutting-edge theories in the area of energy diplomacy in the global context, focusing on topics such as international dialogues on energy, government-directed partnerships, international energy games, the activities of international agencies, and public energy diplomacy. It also analyzes in detail the relationship between global energy diplomacy and international energy, while at the same time identifying the major problems of China's energy diplomacy to provide a framework for the country's energy diplomacy strategy-an essential component of China's overall diplomatic strategy.
