Résumé ou extrait : During the darkest days of the Second World War, the Allies listened intently to the messages of the enemy. Every whisper built a picture of the threat to come - weapons that were terrifying in their murderous capabilities. Target London is the dramatic tale of the inception of the German V-weapons, the Allies' epic race to discover the truth about them and the rockets' effects on the streets of London. Investigative historian Christy Campbell brilliantly interweaves the many strands of this gripping episode. At the heart of this tale is London - the target of Nazi Germany's plan to crush British morale
