Note sur le contenu : Modernity and the Crisis of Democratization in South Asia Political Decay and the Legitimation Crisis in South Asia Nuclear Nationalisms and Quest for Ontological Security Sub-conventional War and the Problematique of Liberal Peace

Résumé ou extrait : "The India-Pakistan Sub-conventional War: Democracy and Peace in South Asia argues that it is possible to map the functioning of democracy in South Asia by studying the role of the army in the political processes of Pakistan. In December 1988, Pakistan experienced a transition to democracy. Simultaneously, the military-intelligence complex was also able to take advantage of insurgency in Jammu and Kashmir and intensify the proxy war against India. Considering such a contradictory political situation, this book studies the deepening conflictual trajectory of the India-Pakistan relations since 1989. By analyzing this period of history, it argues that, in South Asia, the process of democratic transition and intensification of the sub-conventional war have happened concurrently. The book further argues that overt nuclear weaponization and the failure of nuclear deterrence allowed the sustenance of the India-Pakistan sub-conventional war. By examining the

subcontinental security predicament involving the two nuclear-powered adversaries, the book interrogates the democratic peace thesis. It deconstructs the thesis' arguments in the geo-strategic context of the South Asian regional security architecture." (4e de couv.)
