The Battle for Baghdad: Testing Hypotheses About Insurgency From Risk Heterogeneity, Repeat Victimization, and Denial Policing Approaches 7. Laying a Foundation for the Criminological Examination of Right-Wing, Left-Wing, and Al Qaeda-Inspired Extremism in the United States 8. Examining Deterrence and Backlash Effects in Counter-Terrorism: The Case of ETA 9. Routine Activities and Right-Wing Extremists: An Empirical Comparison of the Victims of Ideologically- and Non-Ideologically- Motivated Homicides Committed by American Far-Rightists

Résumé ou extrait : La p. de garde indique : "Although there has been an increase in research on terrorism across the social and behavioural sciences in the past few decades, until recently most of this work has

originated from political science, psychology or economics. Therefore, our focus in this book on criminological conceptual frameworks and empirical studies that engage terrorism and responses to it is unique. We include a distinguished group of researchers that offer their distinctive insights into criminological perspectives on terrorism."
