Autre variante du titre : [Handbook of Arctic security.]

Classification décimale Dewey : 320.911 3

Note sur les bibliographies et les index : Bibliogr. en fin de chapitres. Index

Résumé ou extrait : La 4e de couv. indique : "The Routledge Handbook of Arctic Security offers a comprehensive examination of security in the region, encompassing both state-based and militarized notions of security, as well as broader security perspectives reflecting debates about changes in climate, environment, economies, and societies. Since the turn of the century, the Arctic has increasingly been in the global spotlight, resulting in the often-invoked idea of 'Arctic exceptionalism' being questioned. At

the same time, the unconventional political power which the Arctic's indigenous peoples hold calls into question conventional ideas about geopolitics and security. This handbook examines security in this region, revealing contestations and complementarities between narrower, state-based and/or militarized notions of security, and broader security perspectives reflecting concerns and debates about changes in climate, environment, economies, and societies. The volume is split into five thematic sections: Theorising Arctic Security; The Arctic Powers; Security in the Arctic through Governance; Non-Arctic States, Regional and International Organisations; People, States and Security. This book will be of great interest to students of Arctic politics, global governance, geography, security studies and International Relations."
