Résumé ou extrait : "In this book, policymakers and professionals in the fields of current affairs and

security studies can find essential tools for understanding and addressing violent conflicts since 1991. Drawing on geoeconomics, geopolitics, security studies, and humanitarian perspectives, Dr. Piotr Pietrzak as an expert in International Relations theory, geopolitics, conflict resolution strategies, and international law delves into the roots of competition and cooperation among states. He explores influential concepts and debates, including Francis Fukuyama's "The End of History," Samuel Huntington's "Clash of Civilizations," and Joseph Nye's notion of Soft Power, to provide a theoretical and analytical framework for comprehending the complexities of global power dynamics."
