ethics turned success into failure for Britain's special forces / Chris Green Must liberal democracies compromise their values in order to defeat insurgencies? / Louise Jones The lonely death of Highlander Scott McLaren / Edward Burke Military myths / John Wilson Remembering the British soldier in Iraq and Afghanistan / Helen Parr

Résumé ou extrait : "After twenty years of almost unbroken wars of choice, the deficiencies in the ethical and operational conduct of war by Western armed forces, has largely been ignored by scholarly critique. This volume addresses these deficiencies and demonstrates that they in fact represent the culmination of decades of erosion of military professionalism. Contributions in this edited collection are written by some of the UK's leading soldiers, veterans and scholars working in the fields of military ethics and contemporary conflict"
