

Cyber threat intelligence

Type de contenu : Texte

Type de médiation : sans médiation

Type de support : Volume

Titre(s) : Cyber threat intelligence / Martin Lee,...

Auteur(s) : Lee, Martin (19..-....) expert en sécurité informatique

Publication : Oxford Hoboken (N.J.) : Wiley

Date de copyright : C 2023

Description matérielle : 1 vol. (XX-284 p.) : ill. ; 24 cm

ISBN : 978-1-119-86174-4
1-119-86174-8

EAN : 9781119861744

Classification décimale Dewey : 364.168 2

Note sur les bibliographies et les index : Bibliogr. en fin de chapitres. Index

Résumé ou extrait : "This book describes the intelligence techniques and models used in cyber threat intelligence. It provides a survey of ideas, views and concepts, rather than offering a hands-on practical guide. It is intended for anyone who wishes to learn more about the domain, possibly because they wish to develop a career in intelligence, and as a reference for those already working in the area. The origins of this book lie in an awkward dinner conversation. On one side of the table was myself, a software engineer who had fallen into the domain of cyber security more or less by accident. On the other was a uniformed senior military intelligence officer. A shared professional interest in cyber threat intelligence had led to us being invited to the same event." (extrait de la préf.)
