campaign / by Lieutenant General (Retired) Daniel P. Bolger Egypt vs. Israel: combined arms in the Yom Kippur War and the lessons for the US Army / by Tal Tovy Today and tomorrow: echelons above brigade-combined arms maneuver in large-scale combat operations / by Lieutenant General Michael D. Lundy

Résumé ou extrait : "Part of The US Army Large-Scale Combat Operations Series, Bringing Order to Chaos provides 10 case studies written by a diverse group of military historians. All of the chapters focus on some element of command and control of combined arms from 1917 through 2003. These case studies--ranging from US Army Corps in their first major fight to divisions fighting on the far end of culmination--provide strong lessons in the major issue of combined arms warfare: whether victory is determined by maneuver, by fires, or a combination of both. In the concluding chapter, Lieutenant General Michael D. Lundy, Commanding General of the US Army Combined Arms Center presents a vision of the future in combined arms maneuver and expectations to win our next wars in multi-domain operations." (éd.)
