Résumé ou extrait : "The Unfinished Quest: India's Search for Major Power Status from Nehru to Modi presents the path that India took towards a higher regional and global status. It discusses the challenges and key motivations driving Indian leaders to enhance India's global status and power. As the economies of China and India grow rapidly, the power balance between them is determined by their ability to develop the hard and soft powers. The Unfinished Quest also covers a new framework for understanding the China-India rivalry and India's relative position in the broader Indo-Pacific theater. It identifies indicators of greater status as benchmarks in the assessment of India's history of development, status competition, and transitions in the contemporary international system." (éditeur)
