Blank Russia and the U.S. war on terrorism / Stephen J. Blank Coalition partners : China / Andrew Scobell Reaction of key Asian states to the war on terrorism / Andrew Scobell Terrorism : sounding Roland's horn across the Atlantic / Raymond Millen

Résumé ou extrait : Présentation de l'éditeur : "Within only a few days after the terrorist attacks of September 11, 2001, the U.S. Army War College initiated a series of short studies addressing strategic

issues in the war on terrorism. This collection of essays analyzes a broad array of subjects of great strategic importance. This volume provides historical documentation of some of the advice given the military leadership in the early days of the war, but it also continues to be a source of solid strategic analysis as the war lengthens and perhaps broadens."
