Army that can attack-a division that can defend Annex B. What price assault without support ? Annex C. The Attack

Résumé ou extrait : "Account of one of Canada's great military commanders. Although an examination of the command and leadership of G.G. Simonds in theSecond World War, the lessons drawn out are relevant to this day. Arguably, the art and science of command and leadership are timeless and the value of Simonds' thoughts on these concepts, revealed through an analysis of Simonds' campaigns,specifically his directives, orders and writings, provide important insights into the command philosophy of one of Canada's greatest wartime commanders. Many, if not most, of these insights or "lessons" on command and leadership are as pertinent today as they were when they were written."

Sujet - Nom de personne : Simonds, Guy Granville (1903-1974)
