Note sur les bibliographies et les index : Bibliographie en fin de chapitres. Index

Résumé ou extrait : "At a time when the field of International Relations (IR) is diverting from grand theoretical debates, rediscovering the value of classical realism and exploring its own intellectual history, this book contributes to these debates by presenting a cohesive view of Raymond Aron's theory of IR. It explores how a careful reading of Aron can contribute to important current debates, in particular what a theory of IR can be (and thus, what is within or outside the scope of this theory), how to bridge the gap that emerged in the 1970s between a "normative" and a "scientific" theory of IR, and finally how multidisciplinary is possible (and desirable) in the study of IR. This edited collection offers a synthetic approach to Raymond Aron's theory of International Relations by bringing together some of the most

prominent specialists on Raymond Aron, thus filling an important gap in the current market of books devoted to IR theories and the historiography of the field. The volume is divided into three parts: the first part explores Aron's intellectual contribution to the theoretical debates in IR, thus showing his originality and prescience; the second part traces Aron's influence and explores his relations with other prominent scholars of his time, thus contributing to the historiography of the field; and the third part analyses Aron's contemporary relevance. This comprehensive volume contributes to current debates in the field by showing the originality and breadth of Aron's thought."

Sujet - Nom de personne : Aron, Raymond (1905-1983), sociologue -- Relations internationales

Sujet - Nom commun : Relations internationales -- Philosophie

Forme, genre ou caractéristiques physiques : Actes de congrès
