Résumé ou extrait : The imaginative strategic plan of Revolutionary France to cut Britain's lifeline to India by seizing Egypt and the Levant was an epic adventure, set amongst some of the most ancient places of history, then almost unknown to Europeans. The conflicts proved once again the supremacy of the British fleet and furthermore that a reformed British Army was a force to be reckoned with. This fascinating book by Michael Barthorp provides an outline of the campaigns and examines in greater detail the armies which marched and fought amid the desert sands and relics of earlier civilisations
