Résumé ou extrait : La 4e de couv. indique : "First published in 1981, Lawrence Freedman's The Evolution of Nuclear Strategy was immediately acclaimed as the standard work on the history of attempts to cope militarily and politically with the terrible destructive power of nuclear weapons. It has now been completely rewritten, drawing on a wide range of new research, and updated to take account of the period following the end of the cold war, and covering all nuclear powers."

Sujet - Nom commun : Guerre nucléaire
Politique militaire
Forces nucléaires (forces armées)
