The recurring death of nuclear sharing ; 5. Cooperation as consultation ; 6. Proliferation politics ; Conclusion ; Epilogue ; Notes ; Bibliography ; Index

Résumé ou extrait : La 4e de couv. indique : "Drawing on primary sources from both sides of the Atlantic, Britain and the Bomb explores how economic, political, and strategic considerations have shaped British nuclear diplomacy. The book concentrates on Prime Minister Harold Wilson's first two terms of office, 1964-1970, which represent a critical period in international nuclear history. Wilson's commitment to the Non-Proliferation Treaty and his support for continued investment in the British nuclear weapons program, despite serious economic and political challenges, established precedents that still influence policymakers today."
