Résumé ou extrait : La p. de garde indique : "This book is a collection of essential essays on resolving the Israeli-Palestinian conflict by eminent social psychologist Herbert C. Kelman. Few experts or practitioners know the Israeli-Palestinian conflict as well as Kelman, and for over forty years he has conducted interactive problem-solving workshops at Harvard University and elsewhere, engaging more than one hundred Israeli, Arab and Palestinian political activists, journalists and intellectuals in constructive dialogue. Spanning the years 1978 to 2017, the essays gathered here are still relevant today, and attest to the author's broad empathy for Palestinians and Israelis and his passionate pursuit of a resolution of their conflict based on consistent principles that satisfy the essential psychological needs and minimum political interests of both. The selected essays are not only insightful academic papers, but also serve as snapshots-in-time of the ebb and flow of conflict and peace efforts as well as guideposts for future would-be negotiators and facilitators. This volume will be of much interest to students of Middle

Eastern politics, peace and conflict studies, and international relations, and will help would-be negotiators and mediators in practice."
