Résumé ou extrait : "This volume offers a comprehensive overview of the field of space policy. Space is a technology-driven domain, and policy development has accelerated in recent years, at a time when the space economy has begun to show remarkable potential. Thus, this handbook gathers experts from different fields with the aim of (1) offering an overview of the state-of-play regarding space policy issues, and (2) expanding knowledge about possible future developments.2éditeur

Sujet - Nom commun : Politique spatiale
 Astronautique -- Coopération internationale
 Astronautique et civilisation
 Géopolitique
 Astronautique -- Aspect économique
