Résumé ou extrait : Extraits de la 4e de couv. "Widely recognized as one of the most important theorists of warfare, important strands of Carl von Clausewitz's thinking on the subject are not widely known. In 'Clausewitz on Small War', Christopher Daase and James W. Davis begin to address this unfortunate state of affairs. In this volume they have assembled and translated Clausewitz's most important texts devoted to

the analysis of asymmetric, unconventional, guerrilla, and small-unit warfare, including Clausewitz's "Lectures on Small War", held at the Prussian War College in 1810 and 1811."
