Résumé ou extrait : La 4e de couv. indique : "This anthology analyses Israel's role in the Middle East, that is in an otherwise turbulent region. The distinctive chapters by the foremost scholars in the field, focus on Israel's security and foreign policy. Compared to much of the turbulence in the region, Israel's diplomacies have been remarkable resilient and inventive. With the background of 100th anniversary of the Balfour declaration this book is a multidisciplinary study using several different methodological approaches; from discursive analyses, to theories of memories and identity, to interviews with Israeli soldiers in the field, to a legal approach to the topic, as well as International Relations studies and traditional archival studies. South Africa was one of Israel's main partners in terms of security cooperation and weapons research and development until the fall of the apartheid regime. This has been compensated with Israel opening up diplomatic relations with China (1991) and India (1992) and extending its ties with Japan. While the EU often criticize Israel's policies against the Palestinians, this is mostly rhetoric as for practical purposes Israel is like a member of the EU. This comprehensive volume studying contemporary Israel is an invaluable resource for students and scholars interested in Foreign and Security policy, Israel and the Middle East."
