

Bibliography of papers relating to the control of mosquitoes by the use of fish

Type de contenu : Texte

Type de médiation : sans médiation

Type de support : Volume

Titre(s) : Bibliography of papers relating to the control of mosquitoes by the use of fish : (revised and enlarged to 1965) / John B. Gerberich,... and Marshall Laird,... ; World Health Organization

Auteur(s) : Gerberich, John B.

Autre(s) auteur(s) : Laird, Marshall (1923-....)

Organisation mondiale de la santé Genève

Editeur, producteur : [Lieu de production inconnu] : World Health Organization [1965]

Description matérielle : 1 vol. (108 p.) ; 28 cm

Note(s) : "The greater part of this revision of an earlier bibliography (Gerberich, 1946) was undertaken while the senior author was serving as a consultant to the World Health Organization (Environmental Biology, Division of Environmental Health) in August 1965. It should be observed that a number of the references appearing herein were not seen in the original and have yet to be checked for accuracy of detail (see p. 7-8)."
