Résumé ou extrait : This book brings together a unique team of academics and practitioners to analyse interests, institutions, and issues affecting and affected by the transition from Asia-Pacific to Indo-Pacific. The Indo-Pacific has emerged as the world's economic and strategic centre of gravity, in which

established and rising powers compete with each other. As a strategic space, the Indo-Pacific reflects the rise of geo-political and geo-economic designs and dynamics which have come to shape the region in the early twenty-first century. These new dynamics contrast with the (neo-)liberal ideas and the seemingly increasing globalisation for which the once dominant 'Asia-Pacific' regional label stood.
