Barrett Child agency and resistance to discourses within the Paris Principles in rehabilitation and reintegration processes of former child soldiers in northern Uganda / Grace Akello Children associated with Boko Haram : disassociation, protection, accountability and reintegration / Stuart Casey-Maslen Do no harm : how reintegration programmes for former child soldiers can cause unintended harm / Michael G. Wessells How to find the 'hidden' girl soldier? Two sets of suggestions arising from Liberia / Leena Vastapuu Beyond 'the child soldier' : from a recognition of complexity to an ethics of engagement / Nesam McMillan

Résumé ou extrait : La 4e de couv. indique : "Although child soldiers have received considerable media and policy attention, they remain poorly understood and inadequately protected. This Research Handbook addresses this troubling gap by offering a reflective and nuanced review of the complex issue of child soldiering.0This comprehensive Research Handbook showcases diverse experiences and unique perspectives. It unpacks the life-cycle of youth and militarization: from recruitment, to demobilization, and return to civilian life. Challenging prevailing assumptions and conceptions, this uplifting Research Handbook focuses on the child soldier's capacity to cope with adversity. In so doing, it emphasizes the resilience, humanity and potential of children affected - rather than 'afflicted' - by armed conflict.0The Research Handbook on Child Soldiers will be of interest to academics, practitioners and activists alike, with its extensive incorporation of cutting-edge fieldwork and the voices of the children themselves. Promoting equity between generations, this Research Handbook will also appeal to individuals from many walks of life who are concerned with the rights of the child in times of conflict, peace and the in-between."
