Classification décimale Dewey : 341.244

Résumé ou extrait : Présentation de l'éditeur : "The EUISS -- in close cooperation with the Strategic Planning Division of the European External Action Service (EEAS) -- has carried out a wide-ranging outreach and consultation process involving the broader expert community represented by think tankers and academics from across Europe (and beyond). As part of this process, the EUISS asked 50 well-known analysts and commentators -- roughly half from inside and half from outside the Union -- to give their opinion in less than 1,000 words on the priorities that the forthcoming EU Global Strategy should address and how. The resulting contributions, published daily between 15 January and 31 March are collectively reproduced in this volume and offer a rich selection of independent views intended to nurture the drafting of the strategy."
