Note(s) : "Categorizing the centrality of foreign policy decision-making as being intrinsic to external relations, China and India are evolving new methodologies enriching the making of foreign policy. In comparison to works on China's foreign policy decision-making, India has not been studied much. Decision-making in Foreign Policy and India-China Bilateral Relations explains theoretical frameworks influencing decision makers with examples of the two countries and their decision-making regarding other countries and concerning issues with global impact" (4e de couv.)
