Résumé ou extrait : Présentation de l'éditeur : "This book provides an accessible history of combined operations, one that reaches back to its earliest days but focuses primarily on the last 250 years, with emphasis first from the conflicts in North America from 1754 to 1783. The book will provide an informed and analytical narrative, emphasizing conflicts around the globe in order to offer coverage not only of the leading powers but also of all those involved in such operations. The author will consider the impact of technological development and of geopolitical changes, providing a dynamic account that looks at goals as well as means and strategies as well as operational and tactical considerations."
