Note de thèses et écrits académiques : Texte remanié de Doctoral thesis Political science University of British Columbia (C.-B.) 2016 Conditions apply : non-state actors challenging state sovereignty through Intergovernmental Organizations : an analysis of national liberation movements and indigenous peoples at the United Nations

Résumé ou extrait : "This book explores the role and relevance of non-state actors (NSAs) in the international system by analyzing the ways these actors gain influence in the United Nations (UN). Offering a systematic, theoretical, and empirical account of how NSAs contest and potentially change state sovereignty through the UN the author considers the successes and failures of national liberation movements and indigenous peoples and examines how and under what conditions such a challenge is

possible. This book will be of great interest to scholars and graduate students in the fields of international law, politics, history, human rights, and governance. It will be especially useful to those with an interest in the proliferation of non-state actors in the international system and the role and relevance of Intergovernmental Organizations."
