Titre(s) : Examining ISIS support and opposition networks on Twitter / Elizabeth Bodine-Baron, Todd C. Helmus, Madeline Magnuson,... [et al.]

Publication : Santa Monica (Calif.) : Rand corporation

Date de copyright : C 2016

Description matérielle : 1 vol. (XVII-61 pages) : ill., cartes, graph., tabl. ; 28 cm

Collection : [Research report] RR-1328-RC

ISBN : 978-0-8330-9589-3

0-8330-9589-7

0-8330-9591-9

978-0-8330-9591-6

EAN : 9780833095893 br.

Appartient à la collection : [Research report] RR-1328-RC

Classification décimale Dewey : 327.117 014

Note sur la description bibliographique : Consultable à l'adresse

Note sur les bibliographies et les index : Bibliographie pages 59-61

Résumé ou extrait : La 4e de couv. indique : "The Islamic State in Iraq and Syria (ISIS), like no other terrorist organization before, has used Twitter and other social media channels to broadcast its message, inspire followers, and recruit new fighters. Though much less heralded, ISIS opponents have also taken to Twitter to castigate the ISIS message. This report draws on publicly available Twitter data to examine this ongoing debate about ISIS on ArabicTwitter and to better understand the networks of ISIS supporters and opponents on Twitter. To support the countermessaging effort and to more deeply understand ISIS supporters and opponents, this study uses a mixed-methods analytic approach to identify and characterize in detail both ISIS support and opposition networks on Twitter. This analytic approach draws on community detection algorithms that help detect interactive communities of Twitter users, lexical analysis that can identify key themes and content for large data sets, and social network analysis."
