Publication : Oxford New York (N.Y.) : Oxford University press

Date de copyright : C 2019

Description matérielle : 1 vol. (XXIII-401 p.) : ill., carte, graph., fotogr., couv. ill. en coul. ; 25 cm

ISBN : 978-0-19-880357-7

EAN : 9780198803577 br.

Classification décimale Dewey : 327.1

Note sur les bibliographies et les index : Bibliogr. p.[359]-386. Glossaire. Index

Résumé ou extrait : La 4ème de couv. indique : "With its exceptionally clear writing style and broad coverage of classical theories, contemporary approaches, and current issues, Introduction to international relations is an ideal first introduction to the subject. Why do states and state systems exist ? Are contemporary states more likely to compete or cooperate with each other ? Is the world a more secure or more dangerous place since the end of the Cold War ? This widely acclaimed text will help you to understand how such key debates in international relations are connected not only with each other, but with our perceptions approaches to international relations and how they apply to the real world, assess the strengths and weaknesses of the arguments presented, and highlight key issues and areas of contention, making it an invaluable resource for your studies. New to this edition : increased coverage of non-Western traditions gives you a broader view of international relations. Each chapter now includes topical discussions of how different theories pay attention to both domestic and international forces. Professor Jorgen Moller of Aarhus University joins the author team, offering new perspectives and insights. All

chapters have been fully updated to account for recent developments in the international system, including the crisis of the liberal world order."
