

# **Handbook of sensory physiology**

Type de contenu : Texte

Type de médiation : sans médiation

Type de support : Volume

Titre(s) : Handbook of sensory physiology / Editorial board: H. Autrum,... [et al.]

Autre(s) responsabilité(s) : Autrum, Hansjochem (1907-2003) (Éditeur scientifique)  
Loewenstein, Werner R. (Éditeur scientifique)

Editeur, producteur : Berlin : Heidelberg : New York : Springer-Verlag, 1971-1972

Description matérielle : 9 vol. : ill. ; 26 cm

Appartient à la collection : Handbook of sensory physiology

Autre variante du titre : [Handbook of sensory physiology.]

Note sur l'exemplaire : (BCSSA) Vol. 1 [E03 (1)]

(BCSSA) Vol. 2 [E03 (2)]

(BCSSA) Vol. 3, Part. 1 [E03 (3/1)]

(BCSSA) Vol. 7, Part. 1 [E03 (7/1)]

(BCSSA) Vol. 7, Part. 2 [E03 (7/2)]

(BCSSA) Vol. 7, Part. 4 [E03 (7/4)]

(BCSSA) Vol. 6 part. 2 (année : 1974) [IMA-1160-B (6/2)]

(BCSSA) Vol. 6 part. 1 (année 1974) [IMA-1160-B (6/1)]

Note sur les bibliographies et les index : Bibliogr. Index

Note sur le contenu : v. 1. Principles of receptor physiology v. 2. Somatosensory system v. 3, pt. 1. Enteroceptors v. 3, pt. 2. Muscle receptors v. 3, pt. 3. Electroreceptors and other specialized receptors in lower vertebrates v. 4. Chemical senses. pt. 1. Olfaction. pt. 2. Taste v. 5. Auditory system. pt. 1. Anatomy, physiology (Ear). pt. 2. Physiology (CNS), behavioral studies, psychoacoustics. pt. 3. Clinical and special topics v. 6. Vestibular system. pt. 1. Basic mechanisms. pt. 2. Psychophysics, applied aspects and general interpretations v. 7, pt. 1. Photochemistry of vision v. 7, pt. 2. Physiology of photoreceptor organs v. 7, pt. 3. Central processing of visual information. 2 v. [pt.] A. Integrative functions and comparative data. [pt.] B. Visual centers in the brain v. 7, pt. 4. Visual psychophysics v. 7, pt. 5. The visual system in vertebrates v. 7, pt. 6. Comparative physiology and evolution of vision in invertebrates. 3 v. [pt.] A. Invertebrate photoreceptors. [pts.] B-C. Invertebrate visual centers and behavior, I-II v. 8, Perception v. 9. Development of sensory systems

Sujet - Nom commun : Physiologie  
Sens et sensations

Classification de la Bibliothèque du Congrès : QP351 .H34
