ISBN : 1-619-02463-2

978-1-619-02463-2

Classification décimale Dewey : 303.6

Note sur les bibliographies et les index : Bibliogr. p. [294]-297. Index

Résumé ou extrait : "2014 marks the 100th anniversary of the declaration of the First World War, and with it comes a deluge of books, documentaries, feature films and radio programs. We will hear a great deal about the horror of the battlefield. Bourke acknowledges wider truths: war is unending and violence is deeply entrenched in our society. But it doesn't have to be this way. This book equips readers with an understanding of the history, culture and politics of warfare in order to interrogate and resist an increasingly violent world. Deep Violence investigates the ways that violence and war have become internalized in contemporary human consciousness, in everything from the way we speak to the way our children play with one another to the way we ascribe social characteristics to our guns and other weapons. With a remarkable insight, Bourke argues for a radical overhaul of our collective stance toward militarism, from one that simply aims to reduce violence against people to one that would eradicate all violence. Her message is judicious and vital: Knowledge about weapons and the violence they bring has simply become too important to cast aside or leave to the experts." (jaquette)
