

Fundamentals of astrodynamics

Type de contenu : Texte

Type de médiation : sans médiation

Titre(s) : Fundamentals of astrodynamics / Roger R. Bate,... Donald D. Mueller,... Jerry E. White,...

Auteur(s) : Bate, Roger R.

Autre(s) auteur(s) : White, Jerry E. (1937-)
Mueller, Donald D.

Adresse bibliographique : New York : Dover, cop. 1971

Description matérielle : 1 vol. (xii-455 p.) : ill. ; 22 cm

ISBN : 9780486600611

EAN : 9780486600611

Classification décimale Dewey : 629.4/11

Note sur les bibliographies et les index : Réf. bibliogr. en fin de chapitres

Résumé ou extrait : La 4e de couverture indique : "When the United States Air Force Academy began teaching astrodynamics to undergraduates majoring in astronautics or aerospace engineering, it found that the traditional approach to the subject was well over 100 years old. An entirely new text had to be evolved, geared to the use of high speed digital computers and actual current practice in the industry. Over the years the new approach was proven in the classrooms of the Academy; its students entering graduate engineering schools were found to possess a better understanding of astrodynamics than others. So pressing is the need for superior training in the aerospace sciences that the professor-authors of this text decided to publish it for other institutions' use. This Dover edition is the result."
