ISBN : 978-0-521-13495-8

Appartient à la collection : Cambridge professional english

Autres classifications : NAB_13-087

Note sur la description matérielle : CD-ROM

Résumé ou extrait : Safe sailing prepares sailors for communicating safely at sea by providing thorough practice of the International Maritime Organization's Standard Marine Communication Phrases (SMCP). This standardised set of English phrases is essential to overcoming language barriers at sea and avoiding misunderstandings which can use accidents. Ideal for self-study, Safe Sailing is perfect for use both on land and for onboard training, and comes with a guide to help users get the most out of using the CD-ROM.
