

## **Virtual interfaces**

Type de contenu : Texte

Type de médiation : sans médiation

Type de support : Volume

Titre(s) : Virtual interfaces : research and applications = Les interfaces virtuelles entre recherche et applications / AGARD, Advisory group for aerospace research and development

Auteur(s) : Organisation du traité de l'Atlantique nord AGARD

Autre(s) responsabilité(s) : Organisation du traité de l'Atlantique nord, AGARD Aerospace medical panel - Éditeur scientifique

Editeur, producteur : Neuilly sur Seine : AGARD, 1994

Description matérielle : 1 vol. (pagination multiple [193] p.) : ill. ; 30 cm

Collection : AGARD conference proceedings 541

ISBN : 92-835-0746-0

Appartient à la collection : AGARD conference proceedings 0549-7191 541

Titre parallèle : [Interfaces virtuelles entre recherche et applications. fre]

Note(s) : AGARD-CP-541

Note sur la responsabilité : "Papers presented at the Aerospace Medical Panel Symposium held in Lisbon, Portugal, 18th-22nd October 1993."

Note sur les bibliographies et les index : Notes bibliogr.

Résumé ou extrait : Recent advances in technologies for information display and sensing of human movements, combined with computer based models of natural and artificial environments, have led to the introduction of so-called virtual interfaces. Virtual interfaces offer increased flexibility and naturalness, so are considered for use in several domains including aviation, training, design, simulation. Papers presented at this symposium considered issues of research and application in virtual interfaces broadly defined. Issues of technology integration for system development were considered separately from issues of movement monitoring or sensory display. Issues of human performance measurement were presented in the context of both

Sujet - Nom commun : Interface utilisateur  
Systèmes virtuels (informatique)

Forme, genre ou caractéristiques physiques : Actes de congrès
