Résumé ou extrait : Here you will find what the war has cost : what it costs in money, what it costs in death, what it costs in oil prices and to growth and in neglect of other pressing needs. And you will find, detailed with great care, the costs still to come : costs in interest and in debt, and the appalling cost of caring for tens of thousands of injured servicemen and women for the rest of their lives. This is a catalog the Bush team never looked at. It's a catalog that they still don't want you to see - James Galbraith, chair, Economists for peace and Security
