Description matérielle : 1 vol. (X-236 p.) : ill. ; 24 cm

ISBN : 978-0-7556-0251-3

EAN : 9780755602513

Classification décimale Dewey : 355.02

Note sur les bibliographies et les index : Bibliogr. p. [213]-230. Notes bibliogr. index

Note de thèses et écrits académiques : Texte remanié de Thèse de doctorat Sciences politiques Aberdeen (Ecosse) 2019

Résumé ou extrait : La 4e de couverture indique : "Humankind has always sought out innovative and new ways of waging war, establishing new forms of warfare. Set against a background of global strategic instability this process of innovation has, over the last two decades, produced a new and complex phenomenon, hybrid warfare. Distinct from other forms of modern warfare in several key aspects, it presents a unique challenge that appears to baffle policymakers and security experts, while giving the actors that employ it a new way of achieving their goals in the face of long-standing Western conventional, doctrinal, and strategic superiority. The Hybrid Age analyses the phenomenon of hybrid warfare through theoretical frameworks and a range global case studies from the 2006 Lebanon War to the Russian intervention in Ukraine in 2014. This book aims to establish a unified theory of hybrid warfare, which not only outlines what the term means, but also places it in its context, and provides the tools which enable an observer to identify and react to a future instance of hybrid warfare."
