Résumé ou extrait : 'An accessible history of one of the most unique corners of Africa ... an important book of history that is frankly a pleasure to read.' -- H-Africa`This is a wonderful book written with great erudition and affection for the peoples and countries of the Horn of Africa, by a longstanding expert who is now enjoying emeritus creativity at the University of Cambridge's Centre for African Studies. It is also yet another valuable contribution to regional studies from London's excellent publisher, Hurst.`The distinguished political scientist and veteran Ethiopianist Christopher Clapham has written a fascinating account . . . insightful, thoughtful, and full of wisdom.'
