Note sur le contenu : Military technonationalism and the drive for indigenous arms manufacturing
Military modernization in the Asia-Pacific : an overview
China India The Republic of Korea Other Asian arms producers : Southeast Asia and Taiwan
Conclusions : the future of military technonationalism in Asia

Résumé ou extrait : Présentation de l'éditeur : "Examines the phenomenon of attempted self-reliance in arms production within Asia, and assesses the extent of success in balancing this independence with the growing requirements of next-generation weapons systems. He analyzes China, India, Japan, South Korea, and Southeast Asia. The overarching question in the book is whether self-reliance is a strategically viable solution for development and manufacturing of arms. Given the ever-changing dynamics and increasing demand for sophisticated next-generation weaponry, will these countries be able to individually sustain their domestic defense industries and constantly update their technologies ? This is the first book to analyze arms production from a regional perspective."
