Résumé ou extrait : La 4e de couv. indique : "This book is a comprehensive response to the challenges of transnational organised crime beyond traditional law-enforcement driven recommendations. Unlike much of the existing literature on organised crime, it is less focused on the problem per se as it is on understanding its implications. The latter, especially in fragile and conflict regions, amount to strategic challenges for the state. The volume is authored by experts with multi-year experience analysing criminal activities and doing so through lenses of conflict and security, development, and technology to engage academics, practitioners and policy makers."
